#### THE WHITE BOOK.

Why should not Austria have its hand made good to the State at least a part of the day's detention? The former's neglect of official duty led to the decision if it did not suggest it as possible.

ON the 29th of March, the White Book, published at Berlin respecting Bosnia matter, Prince Bismarck refers to the arrest of the Englishman, by the German Consul at Apia, for arresting that Matafa should write to the Governor of New Zealand, as to the German Consul at Apia.

It would be far preferable to learn such of these island groups with independent governments, settling all disputes among themselves by arbitration, and guided, if possible, by a committee of foreign powers. It is clear that Austria is aiming at this line of action, and doing her best to preserve the peace of the Pacific. This also is certain to be the policy of all the English powers.

#### WHICH LOVED IT BEST?

Senator Blackburn, of West Virginia, was asked to vote for the bill to reduce the price of living in Washington.

Chicago News: John Sherman has been asked to take. No wonder the Senators want a raise of salary.

Chicago Journal: If they can afford it, plenty of good men can be found who will do the work without an increase of salary.

Philadelphia Ledger: The problem of reducing the surplus is approaching solution. As a first step, the Senators propose to double salaries.

Philadelphia Record: How the expense of staying in Washington is swollen by "swell" habits that have no necessary relation to the public service.

New York World: The style is a vague and the style appropriate and necessary are two different things. Instead of enforcing the nation to the style of one man, the nation should be allowed to follow the style of the majority.

New Haven Register: It is something of a public scandal that the Senate chamber is so filthy and so dirty.
